

Silks Reign Supreme

FALL AND WINTER

Silk supremacy for the Fall and Winter is already decided at the Fashion centers. Then, too, what fabric can take its place with its gentle rustle, so irresistible to womankind? Probably no fabric made is so deceptive as to quality as Silk. Then isn't it to a buyer's advantage to select one with a personal recommendation behind it? Every yard of the following is personally recommended to be the best of their class and we positively guarantee satisfactory wear. Are you taking a possible chance in this case?

Haskel Silks.

These Silks have won their way to the front ranks solely on merit. Never have they advertised and today they are the best known Silks made. PAINTS

You could not ask for a better time to paint outside than now, as it rains just often enough to keep the dust down and paint dries very quickly, besides oil and lead, or mixed paint, will strike into the fibres of wood better when put on in warm weather. We have a strictly pure lead "Old Process" and pure linseed oil. Also "Town and County" brand of Mixed Paint, which we have sold for about twenty years. None better made. Requires much thinning and oil is low now.

Jackson to go from the pastorate of the little Congregational church in Dunsmuir to St. Albans, to lead a flock which has looked to some of the shining lights of the religious world for guidance. Mr. Jackson has shown, however, that he has exceptional qualities. As a pulpit orator, and a cogent, logical thinker he has few equals.
